Class Placement Information

When choosing your preference for your child's placement in his/her class for 2019-2020 remember the following "helpful tips" about how our classes are structured:

- Our classes are structured for a sequential progression. Our 2 1/2 year old's typically move into our 3 year old classes and likewise our 3 year old's typically move into our 4 year old classes (pre-k) and our 4 year old's typically move into our transitional kindergarten classroom. Each "step"/ "class" matches where children are in their development of growth. We value a developmentally appropriate classroom structure. Which means we strive to meet children where they are developmentally and then structure an environment that supports and offers experiences for further growth.
- Remember, to be READY for our 3 year old classes your child must have learned to use the toilet independently. Toileting includes telling, undressing, going, wiping, dressing, flushing and hand washing. Your child must also be 3 years old by October 1st.
- To be READY for our 4 year old classes your child must be 4 years old by October 1st. The 4 year old classes are considered to be a pre-kindergarten class. It is a smoother and easier transition for children entering into this class to have been in our 3 year old class prior to entering the 4's class.
- To be READY for our Transitional Kindergarten class your child must be 5 years old by March 1st. This class is structured for our 4 year old's that would benefit from one more year of pre-school. We have named it a transitional kindergarten because these children are still "transitioning" into the next "step"—Kindergarten. This class offers an extended curriculum beyond the 4 year old curriculum for additional development before Kindergarten.
- Our teachers are your best resources for helping you figure out which class would be the best placement for your child. These preschool years are critical developing years. We are here to help you and your child. At no other time in your child's education is it easier to give your child the gift of time and self confidence in getting ready for the "big" elementary school.
